

GAZETTEER OF BELGIUM AND LUXEMBOURG

MAP SERIES G.S.G.S. 4042.

NORTH-WEST EUROPE, 1/250,000.

(See fold-out map index after Gazetteer of Holland.)

THIS gazetteer, which covers the whole of Belgium and Luxembourg, has been compiled by C.I.U. from sheets of G.S.G.S. 4042.

All place names, as well as water and other physical feature names, appearing on the relevant sheets of G.S.G.S. 4042, are listed in alphabetical order. Larger towns are printed in capital letters. Distinction between places of the same name has normally been made by adding the names of the nearest large towns in brackets after those of the places concerned.

References are to the 10 × 10 kilometre grid squares (squares of 4 × 4 centimetres on the map) in which names appear. Each reference consists of the map sheet number then a stroke, followed by the grid letter, then by the easting and northing grid number of the south-west corner of the relevant square on the map. E.G. "Aart" appears on G.S.G.S. 4042, sheet 3, within the area of the grid letter "K" and within the grid square whose south-west corner is the intersection of the "o" easting (*vertical*) and "9" northing (*horizontal*) grid lines.
