# Configuration steps for adding eReserves to the course shell module

1. After requesting the course shell and activating the course, go to **CONTENT**

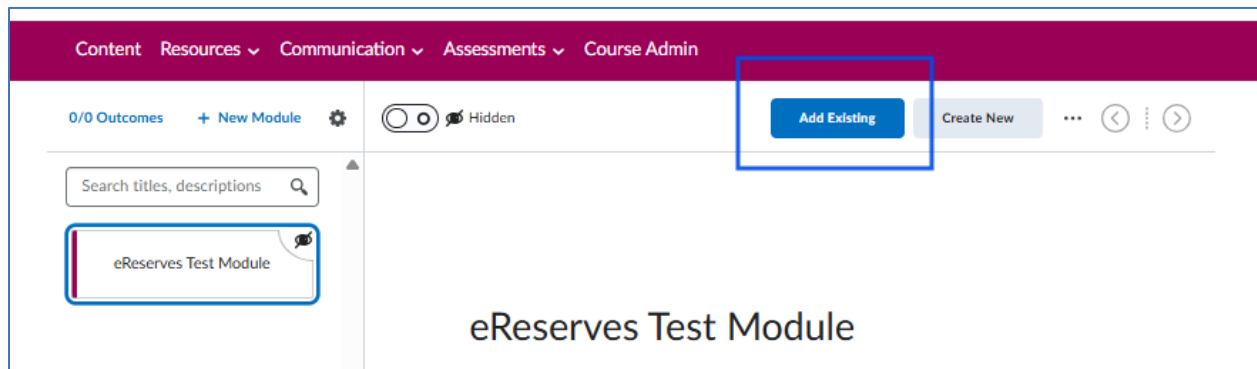

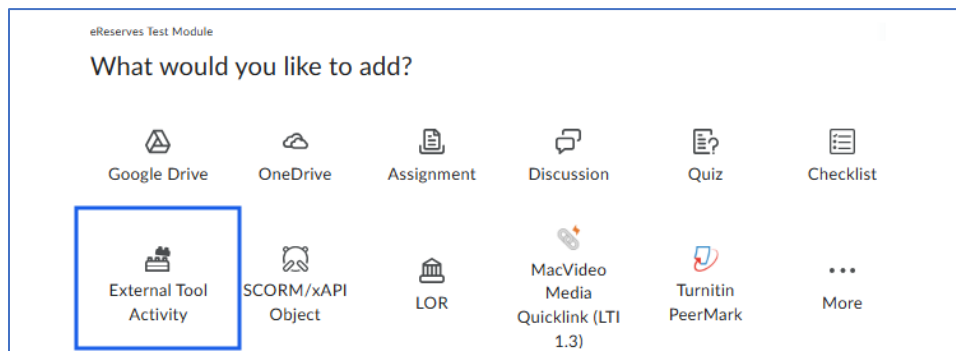

2. Add a **NEW MODULE**

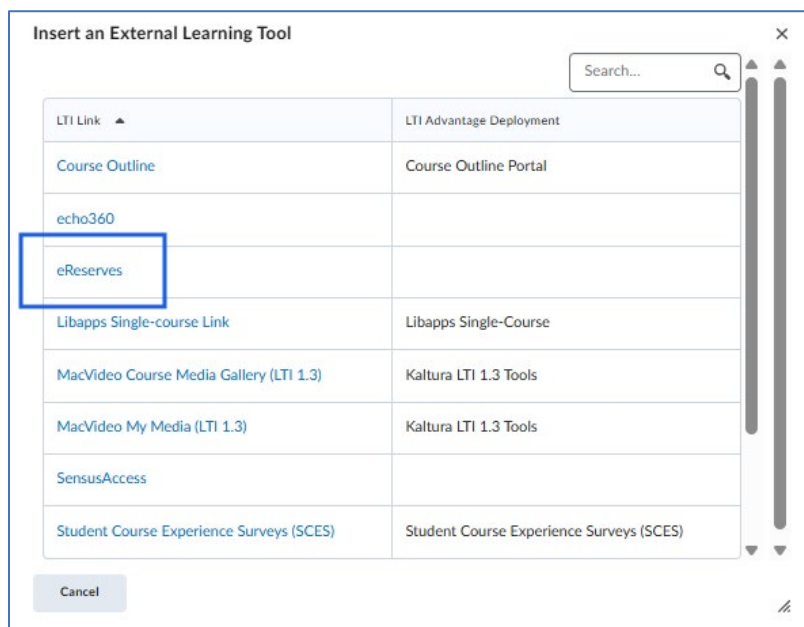

3. Select a **TITLE** for the module

4. Then go to **ADD EXISTING**

5. Select **EXTERNAL TOOL ACTIVITY**

6. Click on **eReserves**

7. You will then see the content. At this time there may not be any items. The items will be populated when the library staff begins working on the course

Any questions please email ereserve@mcmaster.ca
