

## **How to Use Compact Shelving**

Has this ever happened to you? Are you frustrated with compact shelving? Stop! We can help.

Using these three simple steps, you too can easily open the compact shelf.

**Step One** – Find your call number.

**Step Two** – Move the shelf you want to access. But wait! There is more! Before moving the shelf, make sure there's no one there. When the coast is clear, move the shelf by pressing the arrow button.

**Step Three** – Retrieve your book and start studying.

Uh oh! Is the shelf you want lit up with red arrows? Don't despair; just use one of our help phones. McMaster libraries staff are always ready to help.
