SWOT Analysis:

WestJet Airlines Ltd (**WestJet**) is an aviation company, which offers scheduled and charter air transportation services to various destinations in North America, Central America, the Caribbean, and Europe. The company's strong fleet, solvency position and partnerships are its major strengths, even as declining operational performance remains a cause for concern. Prospects for growth in global aviation market, strategic growth initiatives and growing global T&T industry are likely to present new growth opportunities to the company. Stringent regulations and airline security measures could affect the company's performance.

Strength:

- * Partnerships
- * Fleet Capacity
- * Financial Leverage
