ALLIES TO GERMANY

CPH SERIES

File: 0902-0918

CPH series [Command Propaganda Headquarters] leaflets were disseminated to the units of the Wehrmacht by a special team of the 9th American army. Most of the copies were found (quite recently) in shells which had hit the ground but had not exploded after the detonator had been set off. This explains the wrinkled appearance of most of the copies. The rust stains are due to water infiltration in the shells. These leaflets were first printed in Holland in October 1944, then in trucks during the battle of the Ardennes and later during the Roer offensive in February 1945. The first 33 leaflets date from the first printing, October 1944. The special team moved to München-Gladbach, to Hartern, to Gütersloh and finally to Braunschweig. From March 1945 to the end of the war, this team produced the last 7 leaflets. Leaflet CPH 38 was printed in Gütersloh in 2 ½ million copies, the largest printing of the whole operation. For more details and a complete list of these leaflets, see: *The Falling Leaf* no. 150 (Autumn 1995) p. 97-101.
